Intro

I am a telecommunication Engineer born in 1991.

I started getting into Free Software and programming because it is the easiest way for me to develop new things and use my creativity but, at the same time I have been working on electronics, design and arts. Most of the times learning by myself diving on the Internet. This includes: drawing, painting, sculpting, circuit design, programming, 3D design and modelling, creative writing and more.

I practiced martial arts (judo, aikido and karate) for years.

Languages

- English: Conversation level.
- Euskera: Conversation level.
- Español: Native language.

Technical Skills

gnu-linux, electronics, telecommunication, programming,
robotics, prototyping, design, PCB-design, 3D-design

Soft Skills

Public speaking, Teaching/Mentoring, Creative Problem
Solving, Creativity, Documentation, Research, Learning

Experience

R&D Engineer, Fon, *Current*

Skills: c, java, python, javascript, css, perl, bash, gnu-linux, openwrt, wifi, amazon-web-services, amazon-dynamodb, amazon-s3, amazon-lambda, leaflet, google-maps

Research & Development engineer in Wifi related company.

- Continuous research and learning.
 - Presence on variety of projects.
 - Flexibility to learn and work with different programming languages, technologies and architectures.
 - Documentation and product demonstration.
 - Work in an English speaking environment.
-

VoIP technician, Irontec, *August 2014 - April 2015*

Skills: debian, gnu-linux, sip, voip, nagios, ansible, perl, python, pyqt, c, bash, sysadmin, helpdesk, mysql, php

VoIP system management, maintenance, and development.

- Use and management of [IvozNG](#) solution, based on Debian, Asterisk, MySQL and PHP.
 - Issue handling and problem solving. Helpdesk.
 - Linux systems administration. Scripting, automation, maintenance.
 - VoIP hardware management.
 - Minor research and development jobs.
-

Education

Telecommunications Engineer, The Faculty of Engineering in Bilbao, University of the Basque Country UPV/EHU, *2009 – 2014*

Skills: c, c++, java, qt, qml, latex, telecommunication, electronics, signal-processing, networking, linux, kde

Studies

Mainly focused on **electronics** and **computer science**.
Ranked 4 out of 61.

Final project

“Renovation of the User Interface of KDE-Telepathy Audio and Video Call module”

- Migration of the `ktp-call-ui` module to QML.
 - C++ development (Qt, QML, KDE-libraries).
 - Work with the KDE community on a real open source project.
 - [Project included in 0.9.0 version of the software](#)
-
